

SILVERLINE[®]

Combination Padlock Brass 4-Digit

To change your combination:

1. The padlock combination comes preset with the all the digits set to '0'
2. Open the shackle by aligning the combination with the grooves in the padlock body
3. Whilst the shackle is open, rotate it 180° and press it down
4. Then change the combination to the desired number
5. Pull the shackle up and the combination will now be set to that number
